book_id	title	author_id
101	Data Science Basics	1
102	AI In Education	2
103	SQL Simplified	1

Constraints:

- Insert meaningful names and countries (e.g., Ashish, Smaran, Vaibhav).
- Insert book titles that are easy to associate with those authors.
- Use valid foreign keys.

Sample Input:

Input tables Authors and Books

Sample Output:

Authors Table:

author_id	name	country
1	Ashish	India
2	Smaran	USA
3	Vaibhav	UK

SQL

```
1 insert into Authors(author_id,name,country)
2 values(1,'Ashish','India'),(2,'Smaran','USA'),(3,'Vaibhav','UK');
3
4 insert into Books(book_id,title,author_id)values(101,'Data Science Basics',1),(102,'AI in Education',
5 select * from Authors;
6 select * from Books;
```
